

Solar Assist Program

Non-Profit Organizations

NON-PROFIT ELIGIBILITY

Non-profits qualify for previously unavailable ITC's

SHORT TERMS

Program terms available under 20 years

CUT COSTS

ITC's can discount the cost of a Solar PV system by over 60%

What is the Solar Assist Program?

The Solar Assist Program was developed by Energy Advisors and local Hawaiian banks to help non-profits benefit from Investment Tax Credits (ITC).

Customarily, non-profits do not qualify for ITC benefits. Our innovative funding structure creates an opportunity for non-profits to receive ample Federal and State ITC.

Features

Solar PV

Thermal Solar

Battery Storage

Client Statement

"Energy Advisors' program allowed us to take advantage of the large cost discount available through investment tax credits, which made this project financially viable. Our HECO bill dropped immediately once the system was completed".
