

# The EaaS Process

## Preparation

### Reduce Before You Produce

We will conduct a site visit to determine the building's actual energy efficiency needs.

**A Produced kWh = A Saved kWh**

## Implementation

### No Upfront Capital Needed

Local, reputable, partner companies install AND maintain equipment.

## Result/Benefit

- Immediate NOI & Cash Flow Boost
- Latest Technology
- Optimized Performance
- Reduced Carbon Footprint

**One Service Agreement for Current + Future Upgrades**
